Genetics: Sires and service sires of all females are Balancers. BRCC Arnold 78E & 79E are both sons of the Balancer bull "Arnold" that we've used for years. Daughters are moderate, easy-fleshing and fertile. Marbling is excellent. MBCC 11E is a thick, moderate-framed "cow-maker" with excellent carcass. Gerald 2G is a proven calving ease bull with top 35% YW and top 20% marbling EPDs. Both ERTL 22H2 and BRNS 059H are both 4-star calving ease bulls with good growth and marbling. MBCC 15H is 5 star calving ease, growth, female and carcass sire. 127J Payweight is 5 stars for calving ease, growth, female and carcass. He is top 1% for \$ Cow. Cross your fingers for heifer calves!

All due dates are estimated dates based on pregnancy palpation. Most all will calve within 2-3 weeks of the estimated date.

### Spring Bred Cows

ID	BD	Genetics	Sire	Sire of dam	Bred to	Estimated Due date	Base Price
79	3/15/20	Balancer	BRCC Arnold 79E	Balancer	Gerald 2G	3/1/23	\$ 2,700
30H	3/2/20	Balancer	MBCC 5B	Lazy TV Sam	Prophet B006	3/19/23	\$ 2,800
20G	4/17/19	AN-GV-Sim	MBCC 5057	MBCC 3Z	MBCC 11E	5/14/23	\$ 2,550
C1	10/11/15	Balancer	JDKG 856Z	JKAN 105P	BRCC 77G	2/9/23	\$ 1,850
B42	3/29/14	AN-GV-SM-HE	ERTL 5X3	Balancer	MBCC CR 48J	3/31/23	\$ 1,750

Genetics: See notes on Spring Bred Heifers as some sires are the same. MBCC 5B is a "Watchman" son that changed the Riedie Cattle Farms Herd. He was still breeding cows at 8 years of age and left a tremendous set of daughters for Riedie's. MBCC 5057 is also a "Watchman" son and outstanding carcass is another strong suite of these cattle. ERTL 5X3 is a tremendous female sire.

Lazy TV Sam is a very popular purebred Gelbvieh AI sire that combines calving ease and carcass. He is one of the premier "cow-makers" in the Gelbvieh breed. Prophet B006 is a much used AI sire and is the sire of the "J2" bull in today's sale that is one of the best we've ever produced. B006 is super for calving ease, growth and carcass.
